OMRON Donates JPY 30 Million for China Earthquake Relief and an Additional RMB 250,000 of Medical Equipment

SCHAUMBURG, IL (May 15, 2008)—OMRON Corporation (TOKYO: 6645, ADR: OMRNY) announced the donation of JPY 30 million (approximately \$285,000 USD) to help victims of the massive earthquake that struck China's Sichuan Province on Monday, May 12. Omron Healthcare's offices in China separately donated RMB 250,000 (approximately \$36,000 USD) in medical equipment. The substantial donation equaled the amount raised by the Chinese Embassy in Japan at the time Omron made the announcement.

The donation, which is earmarked for emergency medical care, will be made through the Red Cross Society of China.

Through local offices, Omron Healthcare, a subsidiary of OMRON Corp., will also donate RMB 250,000 in medical equipment to China's Ministry of Health. The donation includes 300 blood pressure monitors, 200 digital thermometers, and 100 blood glucose monitors. The equipment will be used to provide medical assistance to evacuees from hard-hit areas.

OMRON would like to extend its sincere condolences to all those who have been affected by the earthquake.

Omron Electronics LLC is the Americas industrial automation subsidiary of Omron Corporation, a \$7 billion USD global leading supplier of reliable, advanced electronics and control system components and services that is celebrating 75 years of success in business. Established in 1933 and headed by President & CEO Hisao Sakuta, OMRON has over 35,000 employees in 38 countries working to provide products and services to customers in a variety of fields, including industrial automation, electronic components, social systems (ticket gate machines, ticket vending machines and traffic control) and healthcare.
